End User License Agreement

To obtain the dataset annotations (unilateral facial action unit intensity), please complete this agreement. The recipient must be **a full-time faculty researcher or a full-time employee of an organization (students are not eligible)**. By signing this agreement, the recipient agrees to the following terms:

- You agree to ensure that all necessary usage licenses and permissions are obtained from the owners of the original datasets (AFLFP and MEEI) prior to accessing the dataset annotations.
- You agree not to reproduce, sell, resell, trade, or otherwise exploit the dataset annotations for any commercial purposes.
- You agree not to publish or distribute the dataset annotations, except for academic purposes limited to the analysis and presentation of results in academic publications.
- Publications include papers, conference or educational presentations, and works distributed via print, electronic, or other media.
- If you use the dataset annotations, please cite this paper:
  - B. Wang, X. Guo, J. Wang, Y. Zhang, and Y. Xia, "UniAU-FP: Unilateral facial action unit intensity estimation via vision-language model for muscle movement assessment in facial paralysis," in *2026 IEEE International Conference on Bioinformatics and Biomedicine (BIBM)*, 2026.

  Because the data annotations build on the AFLFP and MEEI datasets, you should also cite the original dataset papers:
  - Y. Xia, C. Nduka, R. Y. Kannan, E. Pescarini, J. E. Berner, and H. Yu, "AFLFP: A database with annotated facial landmarks for facial palsy," *IEEE Transactions on Computational Social Systems*, vol. 10, no. 4, pp. 1975–1985, 2022.
  - J. J. Greene, D. L. Guarin, J. Tavares, E. Fortier, M. Robinson, J. Dusseldorp, O. Quatela, N. Jowett, and T. Hadlock, "The spectrum of facial palsy: The MEEI facial palsy photo and video standard set," *The Laryngoscope*, vol. 130, no. 1, pp. 32–37, 2020.
- We reserve the right to terminate your access to the dataset annotations at any time.
